

TREATMENT IN MULTISIDDHA MEDISCIENCES

All known therapies are important but none is complete. Integration of available therapies is needed for the betterment of mankind. Patient must be treated with therapy that's most suitable given the nature of disorder and cause. This belief forms the foundation of working of Multisiddha Medisciences. It uses a combination of six therapies called Shatkarma Chikitsa in their most natural form for curing the disorders.

SHATKARMA CHIKITSA

FIVE ELEMENTS

पृथिव्यात्मकगन्धः स्यादाकाशात्मकपुष्पकम् ।
धूपो वाय्वात्मकः प्रोक्तो दिपो वह्न्यात्मकः परः ॥
रसात्मकं च नैवेद्यं पूजा पंचोपचारिका ॥

Meaning- In Ravan Samhita, Srilankadhipati has explained about Antarvaga Vidhi (An internal treatment/procedure) for balancing body. According to Srilankadhipati, five element therapy plays important role for stabilizing body. So, it is essential to give medicines (Naivedyam) which are having specific qualities of five elements. (Ref-Ravan Samhita. Shrilankadhipati)

NADI SCIENCE – System of health prediction and diagnosis based on the measurement of flow of energy currents within the body. It is carried out at gross, subtle and ultra subtle levels of the body to detect the cause of disorders. It is both, analytic and predictive in nature. In ancient times before evolution of modern medicine it was widely used for diagnosis. It has a huge potential of accurate diagnostics when used by a trained person.

RELEVANCE OF NADI SCIENCE IN MODERN HEALTHCARE

Increasing number of complex diseases
Need for improved accuracy of diagnostics
Rising costs of diagnostics

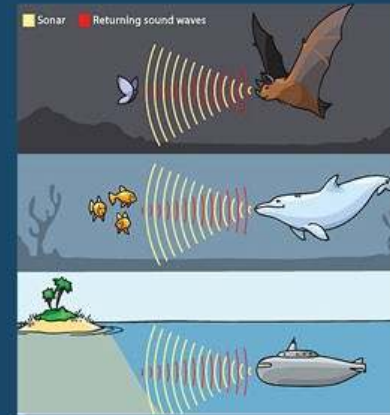

Will power purifies Sanskaras, Love purifies thoughts,
Good deeds purifies 5 elements

SOUND IS THE BASIS OF NADI SCIENCE

- Sound (Vibration) is the cause of creation. Use of sound has a vast therapeutic potential.
- Sound (Vibration) is a measure of health
- Range of vibrations varies from physical to ultra subtle.
- Cause of disorders can be detected by detecting and analyzing the vibrations
